Target NYS Common

Core Goals:

Approaches to Learning: Students will interact with a variety of materials through play.

Physical Development and Health: Students will demonstrate awareness of spatial boundaries and the ability to work within them.

Social /Emotional Development: Students will express feelings, needs, opinions and desires in a way that is appropriate to the situation.

Communication, Language, and Literacy: Students will participate in small or large group activities for story telling, singing or finger plays.

Cognition and Knowledge of the World: Students will actively engage in group reading activities with
